

## Year One Termly Newsletter

Spring 2018

In Year One, this half-term, we will be finding out about the toys children played with in the past. To enhance this topic we shall visit Weston park to take part in a variety of activities. Please would you talk to your children about toys that you and your children played with in the past. In D.T we will be making old fashioned kites.

In Science we will learn to identify a variety of materials and compare and group them according to their properties. In forest school and art we will continue observing seasonal changes and will be focusing on signs of winter.

In literacy we will read and write our own versions of Traditional Tales as well as learning how to sequence sentences to form short narratives. We will learn about animals from hot and cold parts of the world by reading non-fiction books and writing our own information texts..

In ICT the children will learn how to use Espresso coding to write simple algorithms.

Our maths work will focus on multiplication, division, place value, money and measure.

Mrs.S.Perry and Miss. E. Saunders
