16<sup>th</sup> February 2018

Dear Parents/Carers,

We are delighted to announce that, we have appointed Catering Academy to provide the new school meal service from 1<sup>st</sup> April 2018.

School Council children formed part of our panel, to hear presentations from four catering companies and ask them questions. The children all thoroughly enjoyed the process and are planning to follow this up by inspecting the kitchen hygiene ratings next term. They will also be reporting on their experience in our school newspaper.

We feel that Catering Academy are the right fit for our school because they understand that what children eat plays an important role in their wellbeing, and will set them on the right track for later life. They are passionate about cooking from scratch, using fresh, seasonal and locally sourced ingredients but also providing a dining experience for the children and educating them on the importance of eating the right foods and help with their food and nutrition journey.

Catering Academy offer lots of lovely events, competitions and food initiatives to engage the children with healthy eating, and we are looking forward to seeing the impact of these throughout school.

We were very impressed with the team, who will be regular faces around school. Catering Academy are keen to introduce themselves to you all, so please expect correspondence from them shortly and regular updates about school meals.

Yours sincerely

*Claire Jones*
